DIANO

Your business, in order.

Quotes, invoices, stock, payroll and your books, one trusted place, built for South African businesses. Online on any device: your phone, tablet or laptop.

Sell

Customers, quotes, sales orders, VAT-correct invoices, credit notes, delivery notes, receipts and statements. A quote becomes an invoice. Send by PDF, WhatsApp or your own e-mail program.

Buy

Approved suppliers, purchase orders, goods received, supplier invoices and payments. DIANO checks the order, the goods received and the invoice against each other.

Stock and bank

Items, stock levels, cost of sales and stock takes. Import your bank statement, match each line and reconcile the month.

Books and VAT

Double-entry books, expenses, journals, recurring invoices, the trial balance, profit and loss, balance sheet, cash flow and ageing. VAT201 figures from your books. Lock a month when it is done.

People Growth

Employees, leave, payroll runs and payslips. EMP201 figures, marked Preview: check them with your tax practitioner.

Control

Roles for each person, a second person for key steps, and an audit trail that nobody can edit or delete. Your accountant signs in free.

Moving from Sage or another program?

Settings › Bring data into DIANO › Move to DIANO. Export a few reports from your old program, upload them, and DIANO compares every figure before anything comes across. Keeping records safe

- ✓ Your business records (customers, quotes, invoices, users and the audit trail) are stored in Google Cloud's Johannesburg region, called africa-south1.
- ✓ A full backup of the database is made every day and kept for 14 days.
- ✓ A Company Admin can download all the company's records at any time.
- ✓ People can only see their own company's records.
- ✓ Built with POPIA in mind. We do not sell personal information.
